

# The Market Trader Series Computer Software by AIR Software Receives the READER'S CHOICE AWARDS from Stocks & Commodities Magazine (Feb 03 Bonus Issue)

<p><b>ARTIFICIAL INTELLIGENCE SOFTWARE (expert, neural)</b></p>  <p><b>WINNER</b></p>	Honorable Mention	<b>MARKET TRADER: MINI, STANDARD, PRO, EXPERT</b>	AIR Software
<p>Artificial intelligence is a systematic approach to trading. An expert system is generally designed by the vendor and provides the trader with signals. A neural network trains itself on the data and creates its own rules. These packages are best suited for traders with an analytical bent.</p>			
<p><b>OPTIONS TRADING SYSTEMS</b></p>  <p><b>WINNER</b></p>	Semi-Finalists	<b>INDIGO INVESTMENT SOFTWARE FOR OPTIONS</b>	Financial Software Services, Inc.
<p>While many traders may track the underlying security to generate signals for the options, there are packages that generate signals based on the options activity itself. Check to make sure that the package is for your favorite market.</p>		<b>MARKET TRADER: MINI, STANDARD, PRO, EXPERT</b>	AIR Software
